UNSEEN PASSAGE

Carpenters are involved in the construction of many different types of structures such as bridges or large buildings. Some carpenters change employers each time they finish a construction job. The duties of a carpenter differ just about each time they accept employment. In most cases, carpenters work in many different locations hundred miles away each year. Carpentry is a very strenuous outdoor profession. Carpenters endure climbing, bending, and heavy laborious work. Often they put themselves at risk of injury working with sharp tools and they work in areas where it is all too easy to fall or slip.
